Digitize with the SupraScan QUARTZ A1 by i2S

THE HIGHEST LEVEL OF IMAGE QUALITY

At i2S, we have been involved for **ten years** in a policy to make internal teams aware of these image quality standards and train them to these specifications for designing and producing scanners **top of the line**.

It is thanks to its years of experience that i2S has **high-level expertise on the complete chain of your digitization projects and image quality**.

Our experts are at the heart of the **Metamorfoze** guidelines and **FADGI**, and we offer digitalization solutions compatible with **ISO 19264-1**.
